How is digitalisation impacting ConTech?

Dr. Angus Maxwell, Founder and CEO of Maxwell GeoSystems will be attending the BTS conference in London - UK, where he will be giving a talk on the impact of digitalisation on the construction industry, which has given rise to the dynamic expansion of the ConTech (Construction Technology) sector.

Various topics will be touched upon during his talk, such as rise of BIM (Building Information Modelling), Digital Delivery Strategy, as well as some projects supported by MissionOS and the benefits felt.

Dr. Angus Maxwell has been at the forefront of driving digitalisation in the construction industry, moving away from traditional paper-based practices to near real-time data collection from instruments through the use of cloud-based platforms, like MissionOS.

For those attending in-person, do drop in to listen to the talk from Dr. Angus Maxwell, as well as connecting and learning more about the bespoke MissionOS platform and how it can benefit your project delivery.
