### New Appointment

#### Firm's UK Data Management Capabilities Strengthened

Maxwell GeoSystems is pleased to welcome aboard Cameron Hooper as Data Manager for the United Kingdom. His primary role is to manage the flow of data from monitoring installations into the MissionOS system as well as interpreting data for clients.

Cameron is an Engineering Geologist with 5 years experience, having worked on a variety of infrastructure projects to characterise ground conditions.

His experience includes earthworks supervision, scoping and undertaking ground investigations, producing interpretive ground models and writing interpretive reports.

Recently, he worked as part of the Ground Investigation team for the East West Rail project which involved identifying geological strata, determining ground models and parameters for geotechnical design, and writing interpretive reports.

For more information on Maxwell GeoSystems and its MissionOS systems, be sure to check out our website [www.maxwellgeosystems.com](http://www.maxwellgeosystems.com) and subscribe to Follow our company profile on [LinkedIn](#) for the very latest news and developments.
