New Appointment

Firm's Southeast Asia Regional Capabilities Strengthened

Maxwell GeoSystems is pleased to welcome Mandy Ang as Regional Manager for Southeast Asia based in Hong Kong. Mandy is a Tunnel Engineer with over 10 years of civil contractor experience, being involved in underground, rail and road construction. Her experience also covers construction management, research and development.

Mandy started her engineering career building Malaysia's first metro, KVMRT, which spans over 50km with 10km underground. She later took tunnelling further to Hong Kong-Zhuhai-Macau bridge's TMCLK link with Dragages-Bouygues, where she supervised the largest TBM ever built.

With her field experience and various roles over the years, Mandy became well versed with entire project life cycles from design to execution of tunnelling works.
