### Orica Technology Seminar in Hong Kong - 2019

We recently attended the Orica Technology Seminar 2019 in Hong Kong. The event was held over two days with a broad mix of participants from the Hong Kong construction industry as well as Asia Pacific countries.

This was a very interesting gathering for anyone involved in the latest developments in tunnelling, monitoring and looking for an up-to-date insight into projects, technologies and techniques.

Jeff Zhu, Project Manager - Maxwell GeoSystems Limited attended the event together with Roger Carey, Head of Sales & Marketing. Both are based in our Maxwell GeoSystems' Hong Kong office.

As a conference speaker, Jeff Zhu gave a keynote presentation about the Value of Real-Time Technology in Tunnelling.

The forum also allowed the opportunity to discuss and demonstrate our powerful MissionOS system and its innovative & highly configurable capabilities, which are proving to be such revolutionary game-changers to instrumentation and monitoring fields.
